Bacne is very similar to facial acne in its symptoms and causes, but the treatment of it does differ. The skin on your back has larger pores than facial pores which means they are far more likely to become clogged. A soothing back facial treatment can eliminate back acne, back acne scars, impurities and evens out skin tone on the back. The facial typically begins with a gentle steaming to open pores and lift impurities, followed by a deep cleansing and exfoliation. The facial for back concludes with a therapeutic mask.

Royal Gua Sha Facial 90 mins

****\$328**

\$350.96 w/GST

This treatment uses Gua Sha technique similar to acupuncture except that it is done without using intrusive needles. The scraping motion helps break up blood stagnation, releasing toxins by promoting qi flow and lymph drainage. The toxins are then expelled thereby enhancing nutrient supply to the facial area. This deeply purifying facial massage won't cause any bruising or redness. The skin becomes firmer and plumper with more elasticity, allowing the face to regain its youthful contours.
